JIALE LI

DATA SCIENCE UNDERGRADUATE

125090311@link.cuhk.edu.cn

EDUCATION

The Chinese University of Hong Kong, Shenzhen Sep 2025 - Present

School of Data Science | Undergraduate Studies in Data Science

GPA: 3.48/4.00

Selected coursework: Calculus I (A-); Calculus II (A-).
Python Fundamentals (A); Python Project Development (A).

In progress: Statistics; Data Structures.

INTERNSHIP EXPERIENCE

Guotai Haitong Securities, Shunde Branch Jul 1 - Aug 1, 2026

Equity Data Analysis Intern

- Collected and organized publicly available stock market data and company announcements; maintained basic data tables.
- Used AI coding tools to assist with writing and debugging data-cleaning and summary scripts; checked duplicates, missing values and inconsistent formats, and verified outputs.
- Assisted with data categorization, summary statistics and basic market comparisons under supervision.
- Updated spreadsheets summarizing market information and daily business records to support reporting and information retrieval.

PROJECT EXPERIENCE

HKSI Business Competition Oct 2025 - Jan 2026

Data Analysis Team Member

- Distributed 300 questionnaires on campus awareness of tokens; helped organize and analyze survey data to inform a Web3.0 project proposal.
- Worked with three teammates to complete a case analysis in seven days, drawing on CNKI and academic journals to support the proposal.
- Contributed to basic modeling and smart-contract exercises for IP tokenization; used AI tools to assist with prototype coding and debugging, and checked model inputs and outputs.
- The team placed second among six groups in the final group presentation.

CAMPUS ACTIVITIES

Statistics Society

- Participated in study discussions on statistics and data processing, reinforcing concepts in data organization, summary statistics and interpretation.

SKILLS & LANGUAGES

Technical: Foundational Python; SQL; Microsoft Excel; AI-assisted coding and prototyping.

English: IELTS 6.5.
